Tools & Services: VsCode, CLI, NPM, SEO, Git, Supabase, Chakra-UI, Netlify, Email templating

PROFESSIONAL EXPERIENCE

September 2021 to Present

FRONTEND WEB DEVELOPER

BRAND ENCHANTING MEDIA

- Extensive use of **React** and **CSS** across various projects.
- Learned and implemented **WP PHP** code to help refresh dated projects.
- Updated and maintained email automation/templates for these WP sites.
- Built out a multi-page marketing site complete with **CRM** and **Leads Portal**.
- Extensive use of the **Next.JS** ecosystem across all non-WP projects.

RECENT PROJECTS

[EASY BLOG](#), *WRITING TOOL*

My fast/light personal blogging tool

- Built to utilize my computer's web view via **Tauri** that compiles everything through a **Rust** backend producing a safe and secure app for any OS.
- The **SlateJS** library is used as the text editor. Built on **React** it gives me unlimited control of every aspect of the editor experience.
- Strapped to a **Supabase** database to hold all the posts.
- I wrote about my experience building this [here!](#)

EDUCATION

GRADUATED MAY 2017

BACHELOR OF BUSINESS ADMINISTRATION, RUTGERS UNIVERSITY

- My main course load consisted of logistics, corporate restructuring, marketing, international business, and communications classes.
-
